1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jordan on 9/20/04.

The application has been amended as follows:

Claim 1, line 10, before the term "surrounding", --of the connecting housing and which-- is inserted.

Claim 3, line 3, the term "a" is deleted before "at least".

2. The following is an examiner's statement of reasons for allowance: Prior arts made available do not teach or fairly suggest, alone or in combination, a water meter comprising connecting housing, metal housing, a plastic measurement insert having a channel ring upper and lower part and an impeller therebetween, wherein the metal housing presses the plastic measurement insert onto an outlet opening of the housing such that the insert is seated with its lower edge on a gasket on an inlet opening of the connecting housing to thereby form a seal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
